Minutes of the Foundation Council session

At the session held electronically in the period from November 17 to 20, 2014, a discussion was held on matters listed on the agenda (attached). Following the discussion, it was agreed that the Foundation Board's most important tasks in 2015 should be as follows:

1. Activity to disseminate information about the academic achievements of Tadeusz Tomaszewski and show his importance for the development of Polish psychology, namely by holding a scientific conference, e.g. outlining the theory of situations in modern psychology, and working on publishing the proceedings of the last conference on the theory of action (*Main Concepts of the Theory of Action*)
2. Appointing an editorial team for publishing some of T. Tomaszewski's works
3. As part of the search for sponsors, setting up a "consortium" of two units with which the Professor was affiliated: the Faculty of Psychology at the University of Warsaw and the Faculty of Psychology at the University of Social Sciences and Humanities, with the option to invite the Faculty of Psychology at Maria Curie-Skłodowska University in Lublin to join as well.
4. Encouraging the Foundation Board's own initiatives related to the tasks of psychology in a broader sense, also within applied psychology, of which Professor Tomaszewski was always a supporter.

Council composed of:
