

DAY 1 - 14.09 WEDNESDAY

WORKSHOP

with Sonja Windhager

Stationary only / Optional

10:00 - 5:00

OPENING CEREMONY

5:00 - 5:15

PLENARY SESSION I

"A life history view of mate preferences: Evidence from Likert, forced choice, and budget allocation methods"

Dr. Peter Jonason (University of Padova, IT & Cardinal Stefan Wyszyński University, PL)

5:15 - 6:30

RECEPTION PARTY

Stationary only

6:30 - 8:00

DAY 2 - 15.09

THURSDAY

SESSION I		
	Social implications of face evaluation / CHAIR: Ula Marcinkowska	
9:00 - 9:20	Are personality traits visible in faces? Methodological issues when using face prototypes	
	Jeanne Bovet, Arnaud Tognetti, Thomas V. Pollet	
9:20 - 9:40	Don't forget to cut your beard if you wear a tie and wear less facial hair than me! Men's preferences related to facial hair are different in formal and informal situations with unknown men and women	
	Łukasz Jach, Marcin Moroń	
9:40 - 10:00	Beautiful is good? Geometric morphometrics depicts children's facial appearance in relation to expected grades by prospective and current teachers	
	Sonja Windhager, Katrin Schaefer	
COFFEE BREAK		
	10:00 - 10:15	
SESSION II		
	Facial attractiveness / CHAIR: Sonja Windhager	
10:15 - 10:35	Discrepant effects of facial shape and skin homogeneity on the perceived	
	attractiveness in two distant samples	
	Vojtěch Fiala, Petr Tureček, Karel Kleisner	
10:35 - 10:55	The adaptive significance of human scleral brightness. An experimental study	
	Sławomir Wacewicz, Juan Perea Garcia, Dariusz Danel, Zdzisław Lewandowski	
10:55 - 11:15	Distinctiveness, not asymmetry, matters in face attractiveness	
	Petr Tureček, Marco A. C. Varella, S. Craig Roberts, Jan Havlíček, Jaroslava Varella Valentová, Robert Mbe Akoko, Juan David Leongómez, Silviu Apostol, S. Adil Saribay, Odřej Pavlovič, Karel Kleisner	
	COFFEE BREAK	
	11:15 - 11:45	
	SESSION III	
	Parental influence / CHAIR: Perea Garcia Juan Olvido	
11:45 - 12:05	Life history strategies and well-being. Slow life history is correlated with increased well-being	
	Jan Rybak, Agata Wolanin	
12:05 - 12:25	Parental influence on mate choice: High level of discordance over actions and counteractions reported by parent-offspring dyads	
	Anna Fišerová, Jan Havlíček, Zuzana Štěrbová	
12:25 - 12:45	Among Singaporeans, Emotional Warmth Predicts Stronger Sexual Imprinting of Physical Traits – a non-WEIRD, Multi-Ethnicity Study Involving Composite Faces Generated Through Software PsychoMorph	

	Dean Tin Shuen Yew, Dr Antonia Monteiro		
LUNCH			
	12:45 - 1:45		
	SESSION IV		
	Language and communication / CHAIR: Petr Tureček		
1:45 - 2:05	A good point is stronger than a gesture - the development of sign function in children		
	Monika Boruta-Żywiczyńska, Marta Sibierska		
2:05 - 2:25	Lower-Level Mechanisms Underlying Language Acquisition and Evolution		
	Angelo D. Delliponti, Michael Pleyer, Theresa Matzinger		
2:25 - 2:45	The primordial role of pitch and rhythm sequencing in the origin of language grammar		
	Piotr Podlipniak		
	COFFEE BREAK		
	2:45 - 3:15		
	PLENARY SESSION II		
"Building th	"Building the costly human brain: Implications for the evolution of human's slow childhood growth and the developmental origins of obesity risk"		
Dr. Christopher Kuzawa (Northwestern University, US)			
3:15 - 4:30			
POSTER SESSION			
see: Book of Abstract			
4:30 - 6:00			
SOCIAL ACTIVITY			
Guided walk around the old town (Gdańsk) Stationary only / Optional			

6:30 - 8:00

DAY 3 - 16.09

FRIDAY

troglodytes sweinfurthii) in the Bugoma Central Forest Reserve, Uganda Toni Romani, Thurston Cleveland Hicks COFFEE BREAK 11:30 - 11:50 FLASH TALKS / CHAIR: Aleksandra Szymków 11:50 - 12:45 1 Motives Behind Enhancing Human Physical Attractiveness: Data from Polish, Mestizo, and Maya People Marta Kowal 2 Motivation as a mediator of the relationship between situational context, diligence, and quantity of applying makeup Małgorzata Biesiadecka, Aleksandra Szymków 3 Social Distancing as a disease avoidance mechanism: testing the assumptions of		SESSION V
Responses Jessica Ostrega, Dr. David R. Feinberg 9:20 - 9:40 Does linguistic alignment promote cooperation? - An experimental study Theresa Matzinger, Marek Placiński, Adam Gutowski, Mariusz Lewandowski, Przemyslaw Zywiczynski, Slawomir Wacewicz 9:40 - 10:00 Exctiting implication of the first formal model of commitment and reputation Marcus Krellner, The Anh Han 10:00 - 10:20 Iris brightness facilitates the perception of changes in pupil size Juan Olvido Perea Garcia, Mariska E. Kret COFFEE BREAK 10:20 - 10:50 SESSION VI Chimpanzees nesting / CHAIR: Awaiting 10:50 - 11:10 Factors influencing ground nesting in Eastern chimpanzees Thurston Cleveland Hicks, Marek Konarzewski, Toni Romani 11:10 - 11:30 Comparing the ages of arboreal and terrestrial nests of eastern chimpanzees (Pan troglodytes sweinfurthii) in the Bugoma Central Forest Reserve, Uganda Toni Romani, Thurston Cleveland Hicks COFFEE BREAK 11:30 - 11:50 FLASH TALKS / CHAIR: Aleksandra Szymków 11:50 - 12:45 1 Motives Behind Enhancing Human Physical Attractiveness: Data from Polish, Mestizo, and Maya People Marta Kowal 2 Motivation as a mediator of the relationship between situational context, diligence, and quantity of applying makeup Malgorzata Biesiadecka, Aleksandra Szymków 3 Social Distancing as a disease avoidance mechanism: testing the assumptions of		Social evaluation and cooperation / CHAIR: Theresa Matzinger
