

CV Naukowe:

Résumé for Researchers (max 4 strony maszynopisu)

I) Personal details:

Provide your personal details, your education, key qualifications and relevant positions you have held.

First and last name

Research ID number, e.g., ORCID

URL of your webpage if you have one

Education history and key qualifications:

Subject of your doctoral thesis or doctoral project (if applicable)

Defended at: Faculty / Institute / University / Country

Subject of your Master's thesis

Defended at: Faculty / Institute / University / Country

Subject of your Bachelor's thesis (if applicable)

Defended at: Faculty / Institute / University / Country

Your current position or university affiliation:

Name of your position

Held at: Faculty / Institute / University / Country

II) Module 1 – How have you contributed to the generation of new knowledge?

W tej sekcji wyjaśnij w jaki sposób Twoje badania stanowią wkład do nowych badań / idei; w jaki sposób hipotezy badawcze czy umiejętności używasz do tworzenia nowych pomysłów oraz testowania hipotez. W jaki sposób komunikujesz swoje pomysły, wyniki badań. Możesz wskazać wybrane publikacje z opisem, w jaki sposób wpłynęły na pogłębianie wiedzy w polu badawczym. Możesz wymienić, np. publikacje: artykuły (dostępne pre-printy); monografie, rozdziały w monografii, wystąpienia konferencyjne, dane badawcze, software, patenty, licencje, standardy, start-upy lub inne osiągnięcia istotne dla pola badawczego.

In this module you can explain how you have contributed to the generation of new ideas and hypotheses, and which key skills you have used to develop ideas and test hypotheses. You can explain how you have disseminated your ideas and research results, both in writing and verbally, the funding you have obtained and any awards that you have received. You can include a small selection of outputs, with a description of why they are of particular relevance and why they should be considered in the context of new knowledge generation. The outputs can include open data sets, software, publications, commercial, entrepreneurial or industrial products, clinical practice developments, educational products, policy publications, examples of evidence synthesis, and conference publications that you have generated — including DOI, if available, is sufficient.

III) Module 2 – How have you contributed to the development of other individuals?

W tej sekcji prosimy o opisanie Twojej roli w zespole badawczym, udział w prowadzeniu

zajęć dla studentów, współpracy krajowe lub międzynarodowe, organizowanie wydarzeń popularyzujących badania.

In this module, you can highlight your expertise, such as project management, collaborative contributions, and team support, which was critical to the success of a team or your team members. You can include your teaching activities, workshops or summer schools in which you were involved (for undergraduates, graduates and postgraduates as well as junior colleagues), and the supervision of students and colleagues. You can write about the mentoring that you provided to others in your field, and your support, which contributed to the advancement of colleagues, be it junior or senior. You can list the collaborations that you have helped to establish, for example at your own institution (e.g., an interdisciplinary team) or an international cooperation. You can describe where you exerted strategic leadership, how you shaped the direction of a team, organization, company or an institution.

IV) Module 3 – How have you contributed to the research community of your institution?

W tej sekcji możesz opisać, w jaki sposób uczestniczysz w życiu badawczym w swojej uczelni, np. udział, organizacja szkół letnich, współtworzenie lub udział w zespołach badawczych, wzmacnianie kultury badawczej.

In this module, you can include various activities you have undertaken to contribute to the advancement of the research community. You can mention activities such as editing, reviewing, refereeing, or work on a committee, and your contributions to the evaluation of other researchers and research projects. You can mention the organisation of events that have benefited your research community. You can describe how you helped to increase research integrity and improve research culture (e.g., gender equality, diversity, mobility of researchers, rewarding and recognizing researchers for their various activities). You can mention appointments to positions of responsibility such as committee membership and corporate roles within your department, institution or organisation, and recognition by invitation within your sector.

V) Module 4 – How have you contributed to the broader society?

W tej sekcji możesz opisać przykłady Twojego zaangażowania społecznego lub popularyzacji wiedzy lub współpracę z przemysłem czy sektorem prywatnym lub sektorem publicznym, a także Twoje zaangażowanie w życiu publicznym.

In this module, you can include examples of your engagement in the community and knowledge exchange. You can include engagement with the business community and the private sector. You can also mention engagement with the public sector, individual clients and the broader public. You can highlight positive stakeholder feedback, or write about other impacts you have had across research, policy, practice and business. You can mention efforts to collaborate with particular community or patient groups. You can mention your efforts to advise policy-makers at the local, national or international level, and examples of information dissemination in the press and on social media.

VI) Personal statement:

Wskaż na swoje najważniejsze cele lub motywacje do uczestnictwa w działaniach, w które jesteś zaangażowany.

In the personal statement, indicate your main goals and explain your motivation underlying your activities.

VII) Additional information:

Możesz użyć tej sekcji, aby opisać przykłady przełomowych wydarzeń w Twoim życiu, oddelegowania, staże naukowe, wolontariat, praca poza uczelnią.

You can use this section to describe key events in your life, secondments, internships, fellowships, volunteering, and professional experience in sectors other than academia, that have contributed to the development of your research career.
